Professional Summary

Aspiring Data Scientist with a strong machine learning, statistical analysis, and data engineering foundation. Proficient in Python, SQL, and TensorFlow, with hands-on experience in building predictive models and data visualization. Strong analytical skills and a passion for leveraging data-driven insights to drive business decisions and innovation.

Relevant Coursework

- Python for Data Science
- Machine Learning
- Big Data Analytics
- Natural Language Processing(NLP)
- Data Visualization
- Statistics
- Deep Learning

Technical Skills

Programming Languages: Python, SQL

Machine Learning Tools: TensorFlow, Scikit-Learn, NLTK, Spacy, Transformers.

Data Visualization: Matplotlib, Seaborn, Power-BI

Development Tools: GitHub, Visual Studio Code, Jupyter Notebook, MLflow, Docker, DVC, Dagshub

Soft Skills: Team Collaboration, Problem-Solving, Critical Thinking

Internship

- Data Scientist - Rubixe Innovative Ai Tech Solution (Aug- Feb 2025)
- Data Scientist - TCR Innovation (Jun - Sep 2024)
- Python Developer - ADL Coordinates Pvt Ltd (Mar - Apr 2023)

Projects

Employee Performance Prediction System | *Python, Scikit-Learn, Streamlit - (Github link)* **May 2025**

- Developed a **Random Forest** model with **90% accuracy** to predict employee performance ratings using **Scikit-Learn** and **GridSearchCV**.
- Built a **Flask web** application with a responsive **HTML/CSS** front end for real-time user input and performance predictions.
- Preprocessed data with **Label Encoding** and **StandardScaler** saved model and scaler using **Pickle** for deployment.

Tomato Disease Classification | *TensorFlow, Python, Deep Learning - (App link)* **Sep 2024**

- Develop **CNN model** with **TensorFlow**, classifying **13,000 images** and achieving **90% accuracy** for early **disease detection**.
- **Analyzed agricultural** data to enhance model **relevance** for real-world **agriculture challenges**.
- Applied **data augmentation** and **hyperparameter** tuning to improve model **robustness** and **accuracy**.

Expense Management System | *Streamlit, FastAPI, Python - (Github link)* **Sep 2024**

- Developed an **Expense Management System** with a **Streamlit frontend** and **FastAPI backend** for efficient expense tracking.
- Built fast and reliable **API endpoints** with **FastAPI** and integrated them with the **Streamlit application** for real-time expense management.

Education

Savitribai Phule Pune University

Bachelor of Engineering in Computer Science

Jun 2020 – May 2024

Nashik, Maharashtra

Certifications

- NASSCOM : Certified data scientist Nasscom (May 2025)
- IABAC : Data Science Foundation IABAC (May 2025)
- IBM : Certified Data Science in Python Cognitive Class (Oct 2023)
- Data Science with Machine Learning using GenAI TCR (Jun 2024)
- Python: Beginner to Advanced For Data Professionals Codebasics (May 2024)
- SQL : Beginner to Advanced For Data Professionals Codebasics (May 2024)
